Interest & Hobbies

LISTENING TO MUSIC

I love to listen to music on my way commuting to school or work or just for relaxing. I listen to all sorts of genre from pop, rock, classical, orchestra, and opera.

PLAYING VIDEOGAMES

I like playing adventure, role-playing/simulation, and visual novel games with intriguing plots and themes that requires a bit of thinking to fully enjoy in my spare time.

COOKING

Cooking is a form of stress-relief from my everyday routine. I like to try new recipes and cuisines from various countries including but not limited to Indonesia, Korea, Japan, and Italy.

READING / LISTENING TO AUDIOBOOKS

I enjoy reading various genres from updating myself with the current world news, scientific journals, classical novels, young-adult novels and Japanese manga. I also usually get my books in audiobook format.

SELF-IMPROVEMENT

I always try my best to invest in myself by improving my current skills and by learning new skills. As of late, I have been spending my time on learning about investment and stock marketing.
